

DERMAL THERAPY TREATMENTS

What is IPL skin rejuvenation?

IPL (Intense Pulse Light) skin rejuvenation is a light based aesthetic treatment that actively targets and reduces skin irregularities to promote a clearer, younger and healthier complexion.

A consultation is required prior to treatment being commenced to ensure satisfactory results.

Our treatments are customised to suit all skin types.

A course of treatments is recommended to achieve results, treatment intervals vary.

Vascular Therapy can reduced spider veins, broken capillaries, rosacea and vascular lesions to offer more uniform complexion

FRACTIONAL RADIO FREQUENCY SKIN TIGHTENING

A revolutionary treatment that visibly tightens your skin and reduces the signs of ageing.

Plump and repair the skin with Fractional RF (radio frequency) skin tightening. An amazing combination of radio frequency and the natural healing response that stimulates skin tightening, cell regeneration and collagen production. Targeting fine lines, wrinkles, loose skin, stretch marks and open pores.

Fractional RF offers visible results, we recommend weekly treatments over 10 weeks.

**LYMPHATIC THERAPY TIGHTENING
MASK \$159**

The circulatory and lymphatic systems play a vital role in skin health. When our blood circulates around our body it provides nutrients, water and oxygen to our cells and tissues. However during the capillary fluid exchange (where water, amino acids, and oxygen cross the capillary wall into the extracellular fluid), fluids don't travel very far into the surrounding tissue, and even less when there are roadblocks. Which is why needs to be a 'clear road', free from debris, so that these nutrients can get to their target. A go-to treatment for ageing, acne/ problematic skins and to prep the skin for advanced therapies.
